

KWIH's remarkable 30 years in Mainland China Navale - Shanghai

* * *

We're excited to announce that Navale, a luxury residential project in Shanghai developed by K. Wah International ("KWIH"), has sold out on the first day of its launch! As the latest milestone of the group's 30th Anniversary in Mainland China, Navale is strategically located in Lujiazui Finance District, one of the leading international financial centres, and offers the scenic view of the Huangpu river for over 106 households.

Designed by EID Architecture, the architecture of Navale presents a perfect and artistic blend of eastern and western aesthetics. Its façade makes use of wavy setbacks, demonstrating a harmonious balance of the neighbouring Huangpu river and the edgy building design.

Upholding KWIH's principle in delivering projects with "Impeccable Quality Superb Lifestyle", Navale celebrates KWIH's 30 Years and Beyond by redefining modern lifestyle by the river.
